# About Jones Britain

Drawing upon a wealth of experience, Dan and Debbie stand as pioneers in kitchen innovation, consistently setting new standards of excellence recognised by numerous awards in design and service.

At the heart of our approach is a genuine design-led philosophy, driven by Dan's artistic background. Our ethos is built upon a deep understanding of the intricacies of kitchen design and functionality, honed over years of dedication and a shared passion for the culinary arts.

This blend of enthusiasm and professional expertise uniquely positions us to offer tailor-made solutions that seamlessly align with your lifestyle.

With every element of your kitchen journey overseen by us, we ensure a seamless installation by our own team of dedicated fitters.

Our commitment to excellence and understanding of practical, stylish kitchen design ensures that we provide spaces that not only meet, but exceed your expectations. As a result you're left with a beautiful new space that embodies both design excellence and unparalleled functionality.

# Meet The Team

## Dan | Director

Design has been a central theme throughout my life. With three Art A-levels and a degree in 3D design from university, my journey led me to the kitchen industry in 1996 and in 2009, I founded Jones Britain. For almost 30 years, I have taken huge satisfaction from thinking outside the box and crafting kitchens for clients that stand out from the ordinary, offering something truly unique and special.

## Debbie | Showroom Manager

In the mid-eighties, my career began in South London where I trained and worked as a graphic designer. Eventually, I moved to the beautiful surroundings of East Sussex. Here, my work lead me to discover the kitchen industry and Jones Britain. Over two decades later I am still happily working with our clients and introducing them to their ideal kitchen.

## Sophie | Showroom Admin

When Dan and I met in 2003, we bonded over a love of food and all things kitchens. My background included working in my family's successful kitchenware retail business in Tunbridge Wells and in 2005, I chose to step away to focus on raising our two wonderful children. Since then, I have embraced a new role as part of the Jones Britain team, where I thoroughly enjoy guiding our lovely clients along their kitchen journeys.

# The Ranges

Discover the epitome of British craftsmanship with our exquisite range of handmade kitchens, meticulously crafted to perfection in the UK.

Whether you decide on a masterclass kitchen or a truly bespoke space, you can be sure you're receiving unparalleled precision and attention to detail. From the selection of premium materials to the intricate hand-finished touches, every aspect is thoughtfully curated to withstand the test of time.

Drawing inspiration from the latest design trends and timeless classics alike, our range offers a wealth of options to suit every taste and style.

Whether you prefer the warmth of natural timber, the chic sophistication of hand-painted finishes, or the contemporary allure of sleek surfaces, our diverse selection ensures that your kitchen is a reflection of your unique aesthetic vision.

# JB Bespoke

Handcrafted in the heart of the UK, JB Bespoke kitchens skillfully combine traditional craftsmanship with the latest technology, to create beautiful spaces tailored to you. Our unique approach empowers us to design kitchens of any shape, size, color, or style, ensuring a perfect fit for your home.

Manufactured to our exacting specifications, our truly bespoke cabinetry allows for limitless design possibilities. Whether you envision sleek, linear modern designs or timeless classic in-frame styles, our skilled designers can bring your vision to life in any way you see fit.

Our unwavering commitment to quality extends to every detail to make your kitchen truly yours. With JB Bespoke, we offer a myriad of innovative internal cabinet fittings, made-to-order cutlery, utensil inserts, as well as bespoke internal pantry fittings tailored to your specific needs.

From the hinges and handles to the sinks, taps, and appliances, we partner with established specialists, to ensure that every element meets our high standards so that your kitchen remains a timeless masterpiece for years to come.

# Masterclass

Seen on renowned platforms like Grand Designs and Ideal Home, Masterclass Kitchens presents an extensive and innovative range of products crafted to inspire and deliver practical yet bespoke high-end kitchens.

With a legacy spanning nearly 50 years, we proudly stand as a Masterclass Platinum Partner.

Both Masterclass collections offered by Jones Britain encapsulate the essence of contemporary living, blending unique functionality with exquisite design.

The Signature Collection transcends furniture and integrates into your lifestyle, dedicated to enhancing your kitchen experience. Offering a range of innovative, design-led storage solutions, each piece is crafted to marry practicality with exquisite bespoke aesthetics.

The Living Collection embraces freestanding furniture, enabling you to connect and complement your kitchen with other areas of your home. Perfect for modern, multi-functional spaces that embrace open-plan living, this collection allows you to create your own unique style.

# Appliances

At Jones Britain, we believe that an extraordinary kitchen deserves exceptional appliances. We aim to provide an unparalleled kitchen experience with every project we complete. This means hand-selecting appliances that offer superior performance, reliability, and style.

We partner with industry-leading brands that share our vision for high-quality craftsmanship and innovative design, ensuring that your kitchen is equipped with appliances that meet our rigorous standards.

In crafting the perfect kitchen, we understand that every detail counts. That's why our team of experts are dedicated to guiding you through the selection process, offering personalised advice that aligns with your culinary needs and design preferences.

# Your Journey With Jones Britain

Experience the transformation of your kitchen with Jones Britain from start to finish. Discover what sets our approach apart and what to expect as we guide you through every step of your kitchen renovation.

## 1 Consultation

At Jones Britain, we provide a complimentary survey and design consultation, organised around your schedule. Whether in-home or collaborating with your architect, we craft detailed, photo-realistic visuals to breathe life into your kitchen vision.

## 2 Bespoke CAD Design

Using advanced 3D design software, we creatively explore all possibilities for your space, ensuring exceptional design and practical functionality. Our virtual models provide insight into aesthetics and usability, allowing us to test various layouts for optimal practicality.

## 3 Quotation

We partner with leading manufacturers to offer tailored high-quality kitchen essentials including work surfaces, sinks, taps, and appliances. Once finalised with your choices, we'll provide a competitive, personalised quotation for your review.

## 4 Bespoke Build

Once your order is confirmed, we begin production of your kitchen, overseeing every step of the process, whether hand crafted or fabricated using the latest CNC technology. To add further quality assurance, your appliances are UK specific and come directly from the manufacturer - whilst people we know and trust, carefully deliver your kitchen to your home.

## 5 Project Management

We develop a detailed schedule of works, coordinating all processes, parts, and personnel efficiently. Your installation is overseen by a dedicated project manager, facilitating communication between you, our fitters, and suppliers to ensure timely and budget-friendly completion.

## 6 Installation

Our dedicated installation team ensure your kitchen is installed with the highest levels of care and precision, building our reputation with their exceptional skill and attention to detail.

# Our Portfolio

Immerse yourself in a collection of beautiful kitchens, all designed, supplied and installed by Jones Britain.

As you navigate through our portfolio, you'll encounter a rich variety of styles, from sleek modern designs to timeless traditional aesthetics. Each kitchen is custom-tailored to reflect the unique preferences and lifestyles of our clients.

This combination of both JB Bespoke and Masterclass kitchens is a testament to the unwavering dedication to quality, artistry, innovation, and attention to detail, all of which define our approach here at Jones Britain.

Feel free to draw inspiration from any of the featured projects in our portfolio and bring your ideas to our design consultation. We're here to collaborate with you, tailoring your vision to create a kitchen that reflects you.

## Hand-Painted Traditional Kitchen

Northiam

This classic, handcrafted In Frame kitchen, custom-designed with virtually each component curved to match the room's contours. The kitchen island echoes the curved design, resembling a teardrop shape, and offers extensive storage capable of accommodating over 300 wine bottles, making it an exceptional showcase kitchen.

Dan, the designer behind this creation, was awarded the Kitchen Designer of the Year (Over 30k) for his intricate, traditional design, celebrated for its meticulous attention to detail and striking aesthetic.

## Striking Graphite Contemporary Kitchen

Ticehurst

This kitchen transformation journey begins with a bold redesign, - relocating the entrance and seamlessly integrating an entire walk-in larder behind the ovens, setting the stage for a space that is as functional as it is breathtaking.

At the heart of this contemporary masterpiece are the graphite units, a choice that speaks volumes about the project's modern ethos. These units, with their deep, rich tones, provide a striking contrast to the Acupanel wood slat panelling that adorns the walls. This ingenious combination of materials creates a captivating interplay of textures and surfaces, all harmoniously blended to achieve a balance of modern aesthetics.

## Handmade Bespoke In-Frame Kitchen

Tunbridge Wells

This once segmented kitchen, pantry, and utility room has transformed into this stunning unified, open plan space. The vibrant blue cabinetry, hand-painted with meticulous care and precision injects a lively, yet sophisticated character into the expansive room.

Integrated appliances maintain the sleek, uncluttered lines of the design, while the addition of a wonderfully curved larder combines form with function, providing ample storage.

The island, thoughtfully positioned at the heart of this area, stands as the centrepiece, attracting family and friends with its inviting presence. It embodies the perfect fusion of aesthetics and functionality, serving as a dynamic centre of the space.

## Innovative Curved Contemporary Kitchen

Esher

This Esher Surrey kitchen boasts a contemporary, bespoke design which required innovative and unconventional thinking. For this new build project, the goal was to create a kitchen that stands out both in aesthetics and functionality without filling the vast space entirely with furniture.

The design focuses on a central island and includes unique banquette seating inspired by a shell. The seating features a rounded exterior that mirrors the bulkhead above, with a bezier curve inside and 13 different radii, allowing for easier access from one end as it splays out.

## Bright Classic In Frame Kitchen

Billingshurst

For this West Sussex barn conversion, we designed a practical yet classic kitchen that harmonises with its beamed, spacious interior. Our bespoke kitchen features a large island with white Corian countertops and dark painted cabinets, creating a central gathering spot complete with bar stool seating at a solid oak breakfast bar.

The traditional aesthetic is maintained with a cream AGA, surrounded by white cabinets and dark granite countertops that complement the black AGA top. The design flows into the dining area with white, tall curved pantry and fridge cabinets leading to bifold music and media units, achieving a sleek, unified look. Large, light porcelain tiles and modern touches like chrome handles, a Quooker boiling tap, and a stainless steel wine cooler enhance the space with a contemporary flair.

## Striking Windsor Blue Classic Kitchen

Tunbridge Wells

This kitchen, with its unusually angled walls, was redesigned to optimise the unconventional space while embracing stunning garden views through bifolding doors. Designed to complement an oast house, the kitchen features a modern farmhouse style with a two-tone color scheme, an island, and a dresser, creating a perfect fit and a delightful workspace.

Ample storage is provided with a corner larder for essentials, with the island featuring a hob and breakfast seating for convenience. Additional highlights include a bifold dresser drinks cabinet, open shelving, a wine cooler, and a dog bed in an extended alcove opposite the dining area, enhancing the room's functionality and cohesion. It's an ideal, welcoming space for any family.

## Modern Sutton Kitchen

Tunbridge Wells

Our client desired a simple, bright family living/kitchen area. We delivered with a sleek, modern design featuring flat, matte laminate doors in pale grey from our Masterclass range, complemented by matching cabinets. The layout includes tall larders around an American-style fridge for efficient food storage and spacious work surfaces equipped with a large sink, Quooker Flex tap, dishwasher, and concealed bins, ensuring ample space for prep and free movement.

Essential tools are kept within reach on open shelves, while tall cabinets house ovens and provide additional storage without overwhelming the dining area. The island, with bar stool seating, serves as a social and functional centrepiece, offering deep storage for cooking essentials. Luxurious veined quartz countertops and an accent wall in grey-green enhances the space's elegance.

## Hand Painted Edwardian Beaded Kitchen

Heathfield

This transformation saw the kitchen being moved from one end of the house to the other, a strategic shift that significantly enhanced both the ambiance and utility of the space. The kitchen now blends effortlessly into its new location, giving the impression it was originally designed for this exact spot.

Our exceptional craftsmanship takes centre stage, showcased through a custom-built mantle and the precise detailing of coving along the ceiling, conjuring the timeless allure of a classic chimney. This kitchen, a traditional, bespoke in-frame Edwardian beaded masterpiece with butt hinges, stands as a homage to timeless elegance and functionality. It's an ideal haven for those who are passionate about cooking, marrying classic design with modern practicality.

## Black Acupanel Modern Kitchen

Tunbridge Wells

Designed for a tech-savvy client in a new build home, this ultra-modern, masculine kitchen stands out for not settling with the ordinary. After visiting numerous kitchen designers without finding the exceptional flair their property needed, we stepped in to transform the space with this stunning Masterclass design.

We moved beyond the typical rectangular island, introducing an L-shaped design that features a walnut breakfast bar with Acupanel detailing and a cleverly concealed door to the utility room. The kitchen's color scheme is sharply defined by black and white, with walnut accents for a striking contrast. Integrated lighting is used extensively to highlight the cabinetry, and cutting-edge Siemens appliances, including the hob and extractor, incorporate the latest technology for a functional yet stylish space.

## Colourful Handleless Kitchen

Tunbridge Wells

Featured in the prestigious Masterclass Magazine, the goal for this client was to craft a bright, modern, handleless kitchen with a two-tone finish, ensuring the space was both bright and dynamic with seamless flow and functionality. Aiming for a minimalistic Scandi/European style, incorporating dark wood for depth alongside white to maintain balance. The design cleverly integrated a hatch to the dining room and navigated the room's challenging shape.

We selected Masterclass Sutton Scots Grey, Madoc Walnut, and Sutton Burnt Umber finishes, complemented by high-end Gaggenau and Bora appliances. The layout features an innovative L-shaped corner, a Le Mans corner solution, custom oven housings for wide ovens, dual Magna space ladders, and a unique drawer set for the Bora hob. Additionally, a bespoke drinks station with glazed cabinets enhances the luxury and functionality of the kitchen.

# Our Showroom

Offering a peaceful countryside setting with ample on-site parking, our showroom presents a vast array of kitchen designs, from sleek contemporary styles to warm traditional looks. It's the perfect place to find inspiration for the heart of your home.
